

## **Best Practice-1**

### **Basic Beauty Parlour Course**

#### **Objective of the Best Practice**

Education for knowledge, character and Patriotism is the reason of the Institution. While observing academic capacities of the students our institution tries to enrich the character of the students specially the girl students By arranging extension activities in collaboration with the community. Our honorable Prime Minister Narendra Modi used to appeal the nation to become of Atmnirbhar Bharat (Self-reliant) on eve of celebrating Azadi Ka Amrit Mahotsav Objective of The Practice was enrich the students financially along with to develop the life skill to whom with the local and global needs.

#### **The Context:**

Our college has been settled at the heart of the villages. It is an institutional responsibility to analyse the locational advantages and disadvantages. It is the locational disadvantage that students are not aware about the recent Trends in the beautification and updation of their personality especially Cosmetics or fashions. Therefore it is the moderate attempt of the institution to make them awared about the practice (beauty parlour). It is the practice of beautifying and perfecting in the case of the profession in order to overcome locational disadvantages.

#### **The practice**

As discussed with the head of the institution to introduce job ad on courses through the different departments and sections as imperative to appear NAAC. It

has been resolved that Savitribai Phule yuvati manch should conduct job add on course or capacity building course under the basic beauty parlour Course. Accordingly, Yuvati Manch incharge Dr. Meena Kadam in Association with the committee members began to convince the girls students. Finally 21 students registered while attended by 70 students with mearge fees Rs. 1500 per students. On 5th day of April 2022, the basic beauty parlour course has been inaugurated by the head of the institution, Dr. N. G Mali as well as makeup artist and trainer cum Practitioner Ms. Prajakta Ghatole clarified the nature of the course into two sections as theory and practice. During the said course the practitioner taught the theory topics and accordingly practised. The exceptional feature of the course that the attendees would practice day today lives.

### **Problems encountered and Resources required:**

Our college has been settled at the heart of the villages. It is an institutional responsibility to analyze the locational advantages and disadvantages. It is the locational disadvantage that students are not aware about the recent Trends in the beautification and updating of their personality especially Cosmetics or fashions. As a result it was a back breaking and brainstorming job to convince the girl students as well as to convince their parents. Being rural scenario it was a strange

Internal Quality Assurance Cell (IQAC) 2021-22

idea of the institution through the department to undertake the initiative which was outwardly looked pompous. The college girl students belonging to the weaker sections of the society therefore they couldn't afford to pay the course fees in a go. Still our institution tried to arrange and conduct the said course in association with the local makeup artists in return or the fixed hounourium.

To conduct the said course with the available infrastructural facilities was a day dream so that our institution requested the makeup artist to make available her own professional equipment to convenient the intuition.

## **Best Practice-2**

### **Covid-19 Mass Vaccination**

#### **Objectives of the practice:-**

Covid-19 pandemic ruthlessly sweeping the Indians. Therefore during the first and second wave of the pandemic Indians became victim of the deadly disease Covid-19. At the national and international level the researchers were trying to appeal the masses not to worry about the disease. After the first wave the government of India has run the mass vaccination program at the local and national level as the mark of preventing measures as well as appealed to prevent the deadly disease by practicing the social distancing, masking, getting sanitized. Vaccination is considered as the anti-dote over winning the disease.

Indian society is basically built upon the theological sentiments and having the great traditions therefore after the introduction of the vaccination programs Indians didn't get ready to get vaccination. Therefore different agencies were trying to propagate the agenda of vaccination. In response to the national call of defeating the deadly disease our institution has taken the initiative to conduct the vaccination program in collaboration with the Rural Hospital Murud.

#### **The Context:-**

After the second wave the whole world became over conscious and sensitive due to the startling number of mortalities including our working one staff member and one retired staff member. The Covid-19 pandemic literally paralyzed the Indian society in all respects. Therefore it was the need of the time and institutional social responsibility of getting vaccination speedily so that our

## Internal Quality Assurance Cell (IQAC) 2021-22

institution has contributed by conducting the vaccination camps in the college through the NSS unit under the program officer Dr. Chaware M.V..

**The Practice:-**

Our institution has surveyed through the Google form via social media and print media e.g. Whatsapp, News Paper and weekly etc. as well as our institution collected the registered data for vaccination through the aforesaid means. The mass vaccination camp covers the college stakeholders.

There is National Service Scheme (NSS) unit that used to commit the national caused activities and services under the guidance of the head of the institution. Our NSS unit has proposed to conduct the vaccination camps in the college for institute stakeholders. In consultation with Nivali Primary Health Center Dist. Latur our institution decided to conduct the vaccination camp, accordingly on 07.10.2021 the first campus vaccination took place during which 42 college stakeholders got vaccinated.

In consultation with the Rural Hospital Murud, Dist. Latur on 26.10.2021 and 29.10.2021 two vaccination camps had been taken place under the national banner of National Youth Health Mission of which sole object was to vaccinate preferably youths during which vaccination camps 27 college stakeholders got vaccinated. In this way our institution becomes the player of wining fight over covid-19 pandemic.

**Problem Encountered and resources required:**

After the Covid-19 pandemic second wave it was the problem before the institution how to normalize the routine so that our institution trying at the best to contact the college stakeholders through the available mediums. Primarily the response was very slow as well as college stakeholders didn't get ready immediately to get vaccination due to the baseless rumors and pros and cons regarding the vaccine. Still our NSS unit has tried to solve the encountered problems by providing the questionnaires' and medico counselling etc.
