A Report on One Day National E-Seminar on Intellectual Property Rights (IPR)

One-day National Level E-Seminar on Intellectual Property Rights on April 06th, 2024 was successfully concluded at Sambhaji College, Murud in association with Swami Ramanand Teerth Marathwada University Nanded and Global Foundation India Solapur. The program was organized under the guidance of Dr. Manohar Chaskar, Vice Chancellor, Swami Ramanand Teerth Marathwada University, Nanded, Shri. B. S. Dada Patade, Chairman, Samaj Jagruti Shikshan Sanstha, Murud's Adv. V.Y. Patil, Secretary, SJSS, Murud. The said seminar was held in three sessions. At the beginning of the program, Sambhaji College Principal Dr. Ashok Kalam gave introductory and welcoming remarks.

In the beginning of program Professor Dr. Anurag Srivastava, Post-Doctoral Fellow from Lincoln University, Malaysia as the Key Note Addressor. Dr. G.L. Jadhav Professor, Department of Geography and Organizing Secretary introduced the Key Note Addressor. Professor Dr. Anurag Srivastava in his seed speech expressed his views on the importance of Intellectual Property Rights, its types, patents, copyright etc. In the said session, the program was presided over by Dr. D.M. Khandare, Senior Professor and Dean, Faculty of Commerce & Management, S.R.T.M. University, Nanded.

In the second session of the program, Dr. Sandeep Raut, Sri Sri University, Cuttack Odisha and Professor Dr. Swanand Kulkarni, Sinhadgad College of Engineering Pandharpur were the resource person. The session was chaired by Dr. Nitin Deshmukh, Professor and Head, Dept. of Geography, MGM, Ahmadpur and Principal Dr. Shridhar Kolhe, Jaikranti College, Latur was present. Dr. Sandeep Raut presented his thoughts on IPR its Crucial Role in Agriculture and Allied Sectors. Dr. Swanand Kulkarni presented his thoughts on Introduction to Patent Filing and Components of Patent.

In the third session of the program, presentation of 6 research articles on IPR was conducted across the national level. On this occasion Dr. Prashant Gawli, Dr. M. A. Patil, Dr. Niranjani Giri, Dr. Amol Shinde, Dr. P.B. Achole were there as a resource person. The program was coordinated by I. Q. A.C. Coordinator Prof. M. B. Gaikwad. Dr. Meena Kadam, Head Dept. of English and Seminar Convener proposed Vote of thanks. Around 146 participants from national level registered their participation for the program. Online webcasting of the said program was hosted by The Director of Global Foundation India, Solapur Prof. Uma Kalc, Prof. Santosh Manc and his team. The e-seminar makes a grand success due to cooperation by organizing committee members as well as all teachers, non-teaching staff etc., made efforts.

About College

In 1982, Samaj Jagruti Sikshan Sanstha Murud, Ta. & Dist. Latur, (M.S.) has been established in order to serve the society by B.N.(Dada) Patade as the chairman of the institute. The institute has started Sambhaji College, Murud, Ta. & Dist. Latur in 1999. It has been affiliated permanently to Swami Ramanand Teerth Marathwada University, Nanded. The said college has been enlisted under 2(F) & 12(B).

Sambhaji College Murud has been existed in the rural area where no higher education facility had been available. Since the college has been imparting higher education for knowledge, character & patriotism at the UG & PG levels as well as while imparting the UG & PG levels education the college has been counseling the stakeholders to stream with the education through Yashwantrao Chavan Maharashtra Open University, Nasik Study Centre (UG & PG) preferably girls.

Since the college inception, it has been providing higher education facilities to the rural masses especially girl students. During the course of curricular, co-curricular & extension activities the college has been trying to imbibe and inculcate the spiritual, moral, social & economic values among the students. The college has been contributing towards social commitment by addressing the social needs as water supply during the sunny days as well as aiding the victims, financially and psycho socially.

The institution doesn't hesitate in helping the students who hesitate to pay the fees due to their economic weakness or condition. In all respects the college has tried to enrich the students through various curricular & extension activities on and off the campus. The college tries to play as the role of positive catalyst to quality education & creativity through the students' supportive activities & services as NSS, Sports, Cultural etc on & off the campus.

About e-Seminar

The National e-Seminar on Intellectual Property Rights aims to encourage a global dialogue amongst academia, industry, and government stakeholders to drive collaboration and innovation in the field of intellectual Property (IP) protection. The e-Seminar seeks to discuss the challenges and opportunities that arise from IP usage and its impact on society, industry, and the economy.

The primary objectives of the e-Seminar are to identify current trends in the use of IP in both public and private sectors, and to explore ways of increasing the benefits to both individuals and organizations from the development of effective IP strategies. Additionally, the e-Seminar will provide an opportunity for participants to gain an understanding of the legal frameworks governing the use of intellectual property in India and different countries.

Objectives of e-Seminar

- The scope of Call for Inventions transforming into Patents is to provide a platform where Inventors, Researchers, Engineers, Managers, Academicians, Geospatial Technologists as well as Industrial Professionals from across the globe can take up the advantage of securing their novel/uncommon work through Intellectual Property Rights. These Legal Rights ensures that Inventors are protected from theft of their invention and prevents others from using their invention without permission.
- The primary objectives of the e-Seminar are to identify current trends in the use of IP in both public and private sectors, and to explore ways of increasing the benefits
- To analyse the present scenario of IP Rights in the International level
- To spread general awareness regarding various IP Laws
- To explore the challenges and possibilities relating to IP Rights
- To examine the opportunities ensured by IP Rights for a better future
- To disseminate the information and knowledge accumulated through interaction with different experts and scholars in the international arena

Abstract:

With the proliferation of Internet of Things (IoT) devices, network traffic management has become increasingly complex and challenging. This paper proposes a novel approach to enhance network performance by leveraging IoT-driven traffic management techniques. By integrating IoT devices into the network infrastructure, real-time data on network conditions, device connectivity, and user behavior can be collected and analyzed. This data is then utilized to dynamically optimize traffic flow, prioritize critical applications, and mitigate congestion.

The proposed IoT-driven traffic management system employs machine learning algorithms to predict traffic patterns and proactively adjust network configurations accordingly. By dynamically rerouting traffic, balancing loads, and allocating resources based on demand, the system can improve overall network efficiency and reliability. Furthermore, by incorporating edge computing capabilities, latency-sensitive applications can be processed closer to the source, minimizing delays, and enhancing user experience. This paper discusses the architecture of the proposed system, highlighting its key components and functionalities. Additionally, it presents experimental results demonstrating the effectiveness of the IoT-driven traffic management approach in enhancing network performance metrics such as throughput, latency, and packet loss. Finally, potential applications and future directions for research allocations in this field are discussed, emphasizing the importance of IoT-driven solutions in addressing the evolving challenges of modern network management.

Keywords: Edge Computing, Dynamic Optimization, Load Balancing, Resource Allocation, Real-time Data Analysis, Latency Reduction.

Intellectual Property Rights-Navigating the Moral Values

Kavya H. V.

Abstract:

Intellectual property rights (IPR) are legal protections granted to creators or inventors for their creations and inventions. Intellectual property rights include patents, copyrights, trademarks, and trade secrets. It provides protection for the invention. This paper concentrates on the role of moral values in intellectual property rights to distinguish between right and wrong. They shape our behavior and choices, influencing how we interact with others and make decisions. Moral values play a significant role in the realm of intellectual property rights (IPR). They guide the ethical conduct of individuals and organizations in the creation, protection, and use of intellectual property rights.

Key words: Intellectual property rights, Invention, Creations, Moral values.

Impact of Patent Reforms on Innovation Ecosystem In India

Abstract:

The innovation environment has been profoundly altered by India's patent laws, which have created a favorable atmosphere for R&D operations in a variety of industries. This article examines the complex effects of patent reforms on India's innovation environment. By examining the expansion of patentable subject matter, enhanced protection for the pharmaceutical sector, streamlining patent procedures, encouragement of innovation, and challenges for access to essential goods, this study provides insights into the implications for stakeholders and the overall innovation landscape. Through a balanced analysis, this article underscores the opportunities and challenges arising from patent reforms and emphasizes the importance of policy interventions to ensure equitable access to innovation while promoting economic growth.

Keywords: Patent reforms, Innovation ecosystem, Intellectual property, India, Pharmaceutical sector.

Intellectual Property Rights (IPR) In India: Current Status & Future Prospects

Balwan U. Patil

Abstract:

This article provides an overview of the present situation of intellectual property rights (IPR) in India, including the country's legal structure, enforcement techniques, challenges, and future prospects. The analysis emphasizes the importance of intellectual property rights in promoting innovation, creativity, and economic progress. Despite a strong statutory framework, issues including piracy, counterfeiting, and enforcement gaps continue. However, measures like specialized IPR Cells and fast-track courts show efforts to improve enforcement. India's international commitments, particularly under the TRIPS agreement, shape its IPR landscape while asserting rights to safeguard public health and traditional knowledge. Government initiatives such as the National IPR Policy 2016 and Start-Up India program aim to streamline processes and promote innovation. Looking ahead, leveraging emerging technologies like blockchain and artificial intelligence offers opportunities to revolutionize IPR management and enforcement. Collaboration between stakeholders is crucial for addressing challenges and maximizing the benefits of a strong IPR ecosystem.

Keywords: Intellectual Property Rights, India, legislative framework, challenges, Future Prospects.

Enhancing Network Performance through IoT-driven Traffic Management

Sunetra Chatterjee

Assistant Professor of Computer Application Department, IFIM College, Bengaluru.

Corresponding Author- Sunetra Chatterjee

Email: sunetrac2021@gmail.com

DOI- 10.5281/zenodo.11195933

Abstract:

With the proliferation of Internet of Things (IoT) devices, network traffic management has become increasingly complex and challenging. This paper proposes a novel approach to enhance network performance by leveraging IoT-driven traffic management techniques. By integrating IoT devices into the network infrastructure, real-time data on network conditions, device connectivity, and user behavior can be collected and analyzed. This data is then utilized to dynamically optimize traffic flow, prioritize critical applications, and mitigate congestion. The proposed IoT-driven traffic management system employs machine learning algorithms to predict traffic patterns and proactively adjust network configurations accordingly. By dynamically rerouting traffic, balancing loads, and allocating resources based on demand, the system can improve overall network efficiency and reliability. Furthermore, by incorporating edge computing capabilities, latency-sensitive applications can be processed closer to the source, minimizing delays, and enhancing user experience. This paper discusses the architecture of the proposed system, highlighting its key components and functionalities. Additionally, it presents experimental results demonstrating the effectiveness of the IoT-driven traffic management approach in enhancing network performance metrics such as throughput, latency, and packet loss. Finally, potential applications and future directions for research allocations in this field are discussed, emphasizing the importance of IoT-driven solutions in addressing the evolving challenges of modern network management.

Keywords: Edge Computing, Dynamic Optimization, Load Balancing, Resource Allocation, Real-time Data Analysis, Latency Reduction.

Introduction:

With the exponential growth of connected devices, services, and applications, traditional network management approaches are struggling to keep pace with the evolving demands and complexities of modern networks. In this context, leveraging the capabilities of the Internet of Things (IoT) to drive traffic management emerges as a promising solution to enhance network performance and meet the growing requirements of users and applications.

The integration of IoT devices into network infrastructures introduces new opportunities for collecting real-time data on network conditions, device connectivity, and user behavior. This wealth of information can be leveraged to gain insights into traffic patterns, identify potential bottlenecks, and dynamically optimize network resources to improve overall performance. By harnessing the power of IoT-driven traffic management, organizations can achieve greater efficiency, reliability, and scalability in their network operations.

This paper explores the concept of enhancing network performance through IoT-driven traffic management. It delves into the underlying principles, methodologies, and technologies involved in this approach, highlighting its potential to address the challenges posed by the increasing

complexity and diversity of network environments. Through the integration of machine learning algorithms, edge computing capabilities, and real-time data analysis techniques, IoT-driven traffic management enables networks to adapt dynamically to changing conditions and optimize resource utilization in an initiative-taking manner.

Here we will go into the architecture, functionalities, and benefits of IoT-driven traffic management systems. We will also present experimental results demonstrating the effectiveness of this approach in improving key performance metrics such as throughput, latency, and packet loss. We will discuss potential applications and future research directions, emphasizing the significance of IoT-driven solutions in shaping the future of network management.

Objectives:

1. To optimize resource allocation
2. To improve traffic flow.
3. To enhance scalability.
4. To reduce latency.
5. Initiative-taking management.
6. Ensure reliability.
7. To support quality of service (QoS).
8. To enable real-time monitoring and control.
9. To facilitate cost optimization.
10. To drive innovation.

Challenges in Network Performance Management

Increasing Network Traffic:

The exponential growth of IoT devices and data-intensive applications leads to a significant increase in network traffic. Managing the escalating volume of data poses challenges related to bandwidth allocation, congestion management, and scalability of network infrastructure.

Latency and Packet Loss:

Latency-sensitive applications, such as real-time communication and multimedia streaming, require low latency and minimal packet loss to ensure optimal performance. Managing latency and packet loss becomes challenging in environments with diverse traffic patterns and varying network conditions.

Quality of Service (QoS) Requirements:

Meeting predefined QoS requirements, such as bandwidth guarantees, latency thresholds, and reliability assurances, presents challenges in dynamically allocating resources and prioritizing traffic to satisfy the needs of different applications and users.

Resource Allocation and Traffic Prioritization:

Efficiently allocating resources and prioritizing traffic based on application requirements, user priorities, and network conditions is essential for optimizing network performance. Balancing competing demands and ensuring fair resource allocation pose challenges in multi-tenant environments.

efficient data management and analytics techniques. Challenges include data preprocessing, real-time analytics, storage scalability, deriving actionable insights from heterogeneous data sources.

Regulatory Compliance:

Ensuring compliance with regulatory requirements, industry standards, and data protection regulations poses challenges in managing network performance, data privacy, and security. Compliance challenges may arise from evolving regulations, jurisdictional differences, and industry-specific mandates.

Interoperability and Standardization:

Achieving interoperability and standardization among heterogeneous IoT devices, protocols, and platforms is essential for seamless integration and interoperability. Challenges include protocol fragmentation, vendor lock-in, and compatibility issues across devices and ecosystems.

Addressing these challenges requires a holistic approach that integrates technological solutions, best practices, policy frameworks to effectively manage network performance and optimize traffic flow in IoT-driven environments. By overcoming these challenges, organizations can realize the full potential of IoT-driven traffic management and deliver superior network performance, reliability, and user experience.

Data and Methodology

Data Collection:

The first step involves collecting real-time data from IoT devices deployed throughout the

Sub: Regarding National e-Seminar.....

Respected Sir,

With reference to the above mentioned subject, on 6th April 2024, our college is going to conduct One Day Multidisciplinary Online National e-seminar on **Intellectual Property Rights (IPR)** in association with Global Foundation India, Solapur.

Therefore you are requested to sanction our permission and co-operate us.

Thanking you

Enclosure: The e-Seminar Brochure

Yours Faithfully

On 30/03/2024, General teaching staff meeting has been taken place under the chair of the college principal Dr. A.D. Kalam at 1:00 pm in the room no. 05. During the meeting it has been discussed as the organization of the One Day National e-seminar as the Intellectual Property Rights (IPR) Act to be celebrating. During the meeting the seminar convener Dr. M.S. Kadam has highlighted the intent of the seminar regarding the NAC - II.

On behalf of the convener and the head of the Institution urged the staff to make the National e-conference as a grand success.

The convener, Dr. M.S. Kadam, while clarifying the intention she advocated the importance of the IPR-conference as well as requests the Head of the Institution to participate significantly.

Dr. A.D. Kalam, Head of the Institution, he was disposed to the convener but due to technical glitch, impossible as the beginning of the SPM, Handed Summer - 2024 Exam. Still at the best of Institutional level, each faculty member should try to contribute intellectually. All co-convener and the organizing committee should make the possible efforts to carry out the activity.

Dr. A.D. Kalam
30/03/2024

On 05/04/2024, General staff meeting has been taken place at 1:10pm in the Room no. 07. The meeting has been presided over by the college principal, Dr. A.D. Kalim. During the meeting it has been resolved to conduct the one day NABU e-seminar on IPR in case of publication and patent. Upto 10/04/2024 papers would be received. All faculty members should join the e-seminar to make it a grand success.

Dr. A.D. Kalim
